Subject: ATSDR/EPA Coordination

Hi group,

I am providing additional clarification on this morning's call's task regarding external affairs/PIO coordination. There are TWO separate issues that need coordination:

1. The response to letter from sen rock and the ATSDR and EPA environmental Unit or regulatory work.
2. Toxicological message/summary coordination between ATSDR/EPA—Bill Arguto is our regional contact for water protection, Fran Burns and Jack Kelly (environmental unit coordinator) for Emergency Response aspects, and ATSDR's Lora Werner/Karl Markiewicz, and should be aware of what HQ external affairs is saying on this—since after they are the people who have an answer about what is happening at the ground level. FTI At the HQ level our HQ External Affairs office, is coordinating with Health and Human Services, EPA Office of Research and Development, the people in charge of IRIS. Essentially we need you guys to make sure their information is accurate and tied in with the groundwork.

Thanks!
